ELECTRIC AFRICA

VR FESTIVAL

HOW TO VIEW EXPERIENCES

This is a guide on how to watch any of the 360 films presented by Electric Africa VR Festival and hosted by LucidWeb.

MOBILE AND DESKTOP

The WebVR experience is playable through any mobile device and desktop but must be supported by the latest browser versions including Chrome 79; Safari 13; Edge 79 & Opera 64.
VR HEADSET

The WebVR experience is playable through these VR Headsets – Oculus Go (3dof), Oculus Quest, HTC Vive and Oculus Rift. Viewing via a VR Headset is only possible via the Chrome browser ONLY.

HOW TO NAVIGATE
DESKTOP / MOBILE PHONE / HEADSET

- Navigate the gallery and select the experience
- Enjoy the experience in 360°
- Go into VR when you see the VR icon

HOW TO JOIN THE VR SOCIAL – METAVERSE AFRICA MEETUP
Thursday 5 November 9PM (SAST)

This is a guide on how to access the Metaverse Africa Meetup, in partnership with Eden, hosted by the Electric Africa VR Festival.

VRChat lets you fully embody custom avatars and connect with friends in new ways.
*NOTE – VRChat does not work on Mac

➢ Accessing via the Oculus Quest: Search for VRChat in the store. Download to Quest.
➢ Accessing via a PC: Download the VRChat Application from the Steam Store or from the Oculus Store.
➢ Launch VRChat on your device.
➢ You will go through a short tutorial. Once completed open the menu and select 'worlds'.
➢ Click on the search bar and search for Metaverse Africa
➢ Results will load. Click on the result that says #immersiveafrica and join!
